PROFESSIONAL EXPERIENCE

AI-Thoub Al-Alamy Company "Prince - Le Royal" | KSA

2021 – Present

IT Manager & Project Manager

- Spearheaded the end-to-end planning, deployment, and management of a comprehensive corporate ERP system covering Admin, Accounting, HR, Purchasing, CRM, POS, Warehouse Management, and Factory Operations.
- Directed IT operations and technical support across 22 branches, a central manufacturing factory, and a remote administrative office in Egypt, overseeing CCTV, hardware maintenance, and biometric systems.
- Modernized factory operations by implementing advanced technologies to align with the 4th Industrial Revolution and Saudi Vision 2030 objectives.
- Conducted comprehensive training sessions for about 500 employees across all departments on the new ERP modules, significantly improving digital adoption and workflow efficiency.
- Supervised the continuous development and optimization of the company's e-commerce website (princethobe.com).
- Report directly to the CEO on a periodic basis, outlining technical operations, risk assessments, and project milestones to align IT strategy with business goals.

Independent AI Developer

2025 – 2026

AI & NLP Software Engineer (DocuMind AI)

- Architected and deployed "DocuMind AI," an advanced AI-powered web application for automated document analysis.
- Integrated Tesseract OCR for text extraction and spaCy NLP for intelligent text summarization, keyword extraction, and document classification using a Python (Flask) backend.

Independent Software & Web Developer

2019 – 2021

Full-Stack Developer

- Developed diverse applications including a Hospital Management App and a Pharmacy App using C# and SQL Server.
- Created "Labbyk," a comprehensive Android mobile application for Hajj and Umrah pilgrims using Java.
- Built and launched an interactive Android dictionary app featuring multimedia learning tools.
- Designed and deployed dynamic websites for regional clients, including a jewelry store web app, a major Jeddah conference event, and TOSO Company.

Freelance IT Educator

2018 – 2019

Coding Instructor for Children & Teens

- Conducted hands-on programming workshops (Scratch, Python, C#) for students aged 6-14, including Canadian citizens online, students at Madac International School (Madinah), and British Curriculum students in Egypt.

HippoSquad Company

2016 – 2018

CEO & Web Department Manager

- Led the design, development, and launch of the corporate website using HTML, CSS, and PHP.
- Managed digital presence and social media strategies, while successfully delivering 4 distinct web development projects for external B2B clients.

Al-Thoub Al-Alamy Company "Prince - Le Royal" | KSA

2014 – 2016

IT Manager & Software Developer

- Developed a centralized ERP software using C# and SQL Server to interconnect 12 branches with the main office and factory.
- Engineered an interactive digital signage/slideshow application using C# deployed across all branches to enhance customer experience and product selection.
- Delivered external IT projects including an ERP system for "Viel" store and a robust School Management Software for a Saudi educational institution.

- **IT Manager & Network Admin** | New Tech Media Animation Studio, Egypt (2011 – 2014)
- **Internet Rater** | Google "Under Lion Bridge Company" - Remote (2012 – 2013)
- **Programmer** | Not Courses Academy, Egypt (2013)
- **IT Assistant** | Modern Channels, Egypt (2010 – 2011)
- **Accountant** | Eng. Abd-Al-Razak Hakim office, KSA (2009 – 2010)
- **Accountant** | B & T , Turkish company, Egypt (2008 – 2009)
